

1

MS. CORCORAN: Welcome, everybody.

1 rest of the water system. That makes most of its
2 storage unusable. And so in 2019, in the Asset
3 Management Plan that was developed by the
4 Authority, the replacement of this tank was
5

1 pressure control throughout the system.

2 This is the cover of the planning
3 document, which was submitted to the NJDEP in
4 March of 2022. A copy of this has been available
